Sir:

In response to the Office Action dated April 2, 2003, please amend the above-identified application as follows:

IN THE CLAIMS:

Please enter the following amended claims:

13. (Amended) A method of reflecting light using a micro-mirror device in an image display apparatus, comprising:

supplying a driving voltage to at least one of a pair of base electrodes of the micro-mirror device;

creating an electrostatic attraction between the at least one of the pair of the base electrodes and a mirror, wherein the mirror is pivotally supported by a pair of spring members so
